🚀 SENIOR FULL STACK DEVELOPER

With over 8 years of experience, I am a seasoned Full Stack Developer with a deep understanding of both front-end and back-end technologies, specializing in Ruby on Rails. My expertise spans the entire development cycle of web applications, from ideation to deployment. I have a strong track record in Agile environments and excel in developing complex applications, maintaining systems, and leading projects to meet tight deadlines. I continuously stay updated with the latest web development trends to ensure the delivery of modern and efficient solutions.

💻 SKILLS

Core Development Skills	Project Management & Methodologies	Technologies & Tools
Ruby on Rails	Agile Development	Amazon Web Services (AWS)
Full-Stack Development	Project Leadership	EC2, S3, RDS
Automated Testing	Cross-Functional Collaboration	Micro-services Architecture
Front-end Technologies	Time Management	CI/CD Pipelines
Back-end Data Solutions	Problem Solving	Code Refactoring
Software Debugging	Stakeholder Engagement	Memory Management
Performance Optimization	Software Development Cycle	Static Analysis Tools
API Development		Docker / DevOps

🔧 LANGUAGES AND FRAMEWORKS

Frontend Technologies	Backend Technologies	DevOps & Version Control	Additional Skills
HTML/CSS/SASS	Ruby on Rails	Git	OAuth and JWT
JavaScript / ES6/ Node JS	SQL/ Non-SQL/ GraphQL/ MongoDB	Kubernetes / Docker	ActionCable/Websocket
React/Angular/Vue.js	RESTful APIs	Micro-services Architecture	Gem Creation
Bootstrap/Foundation	Microservices	Nginx	Linux Command Line
Tailwind CSS	Sidekiq/Redis	CI/CD Pipelines	Elasticsearch

🎓 EDUCATION

Master of Business Administration - MBA in Management and Operations 06/2022 - ongoing
Indira Gandhi National Open University • Delhi

Bachelor's degree in Computer Software Engineering
Dr. M.G.R. Educational and Research Institute • Chennai 07/2014 - 07/2017

High School
Raath International School 06/2010 - 04/2014

💼 WORK EXPERIENCE

Shore Group Associates • **Hyderabad, Telangana, India · Hybrid** **07/2024 - Present**
Team Lead, Senior Software Engineer

- Led a cross-functional development team delivering solutions for financial intelligence & compliance platform, ensuring high-quality and timely delivery of key product features.
- Oversaw system design, architecture improvements, and performance optimization, data processing and reporting.
- Collaborated closely with product managers to align business requirements with technical execution, enhancing client satisfaction and engagement.

***Stack*:** Ruby on Rails, PostgreSQL, React.js, AWS (EC2, S3, RDS), Redis, Sidekiq, Docker, Kubernetes, Datadog, New Relic, Grafana

Trix qube • **Noida, Uttar Pradesh, India · Hybrid** **05/2023 - 06/2024**
Senior Software Engineer

- Implemented automated testing, reducing bug count by 30% and improving overall product quality, resulting in higher customer retention and satisfaction.
- Designed and implemented a scalable microservices architecture, reducing server costs by 30% and improving system reliability and maintainability.
- Optimized Amazon EC2 instance usage, reducing infrastructure costs by 25% while maintaining high system performance, contributing to significant cost savings.

***Stack*:** Ruby on Rails, Microservices, MySQL, AWS EC2, RSpec, Capybara, Git, CI/CD, Elasticsearch, Logstash, Kibana

Freelancer • **Remote** **12/2022 -05/2023**
Ruby Developer • Full-time

- Collaborated with cross-functional teams to troubleshoot and resolve 95% of reported software bugs, enhancing overall system stability and reliability.
- Developed a scalable Ruby on Rails application handling 1000+ requests per minute, leading to a 50% increase in system performance and reliability.

***Stack*:** Ruby on Rails, MongoDB, Redis, Heroku, DigitalOcean, REST APIs, RSpec, Sentry, Rollbar

AventumX • **Noida, India** **01/2018 - 12/2022**
Software Engineer, Management • Full-time

- Part of a team of 5 engineers to deliver a new software product.
- Developed a scalable architecture that improved system performance and enhanced user experience.
- Reduced software development cycle time by 20% through implementing agile methodologies, resulting in faster time-to-market and improved customer satisfaction.

***Stack*:** Ruby on Rails, Python, React.js, MongoDB , Node JS, AWS (EC2, S3, RDS), Capistrano, Rubocop, Nginx, Git, Honeybadger, CloudWatch Alerts

Enbake Consulting • **Delhi** **07/2017 - 01/2018**
Junior Software Engineer • Full-time

- Researched and implemented a new software testing framework, reducing bug detection.

***Stack*:** Ruby on Rails, MySQL, JavaScript, jQuery, HTML5, CSS3, Git

📁 PROJECTS

Holistic Risk & Business Intelligence Platform

SRA Watchtower → Lumio 2.0 (Lumio Solutions) 📊 07/2024 -08/2025

Contributed as a Senior Rails Developer to build and expand Lumio 2.0, a cloud-native, modular BI and risk platform for community financial institutions. Developed multi-tenant Ruby on Rails services for high-volume data ingestion, reporting, and risk analytics.

Internationally-accredited credentialing

Qualified Applied Behavior Analysis Credentialing Board 🚀 01/2018 -04/2024

Developed an entire platform from scratch to recognize individuals with specific education in Applied Behavior Analysis. Utilized technologies such as Ruby on Rails, Amazon EC2, S3, RDS services, React.js for API Frameworks, Capistrano for Deployments, and Rubocop for static analysis.

Large ticketing web application 01/2023 - 03/2024

Regitr 🎟️

Contributed as a developer to create a large ticketing web application. Worked with Ruby on Rails, Heroku and DigitalOcean services, REST API backend development, Vue.js/CSS/SCSS for front-end development, and implemented Scrum methodologies.

Biotechnology 01/2023 - 12/2023

Twist Bioscience 🧬

Utilized a proprietary semiconductor-based synthetic DNA manufacturing process to provide time and cost savings for customers in DNA synthesis workflows. Technologies used included Ruby on Rails, semiconductor-based technology for DNA synthesis, React.js for API Frameworks, Yarn for package management, and Unix/Linux, Nginx, Apache for server configuration.

Farm Management Platform 05/2023 - 12/2023

Pasture 🌾

Improved Ruby on Rails application for making informed grazing decisions with satellite pasture measurements. Utilized technologies such as Ruby on Rails, satellite technology for pasture measurements, REST API backend development for Mobile Apps, TDD/BDD and unit testing tools, and Webpack/ Vue.js for asset management.

🏆 CERTIFICATIONS

Hackathon 05/2022 - 05/2022

JECRC University

AWS Cloud Practitioner Essentials 08/2021 - 08/2021

AWS
